

Note to Correspondents

The UN Resident and Humanitarian Coordinator in Myanmar Knut Ostby is following with great concern the flooding and extensive devastation caused by heavy rains in Bago, Kayin, Mon, Rakhine, Sagaing and other States.

His thoughts are with all those families whose lives have been impacted and is alarmed by the destruction of property, infrastructure and agricultural land.

The UN in Myanmar is mobilizing its partners, resources and capacity and is offering to provide support to the ongoing assistance delivered to the victims of the floods by the Government of Myanmar, civil society organizations, volunteers and other partners.
